• Introduction to Database

• JavaScript Essentials

PROFILE SUMMARY

Passionate MERN Stack Developer with skills in React.js, Node.js, Express.js, and MongoDB. Experienced in building dynamic, responsive web applications. Quick learner with problem-solving abilities and a collaborative approach.

PROJECTS

Mini Games (Single React Project)

A React.js project that includes four mini-games as separate components:

• **Emoji Game:** A game where the player clicks on unique emojis without repetition to increase the score.

• **Memory Matrix Game:** A memory game with grid highlighting, level progression, and emoji-based feedback.

• **Card Flip Memory Game:** A card-matching game using React Class Components with flip animation, score tracking, and match logic.

• **Rock Paper Scissors Game:** A classic game with player-computer interaction and result calculation.

To-Do List App:

• Task management application built using pure HTML, CSS, and JavaScript to add, edit, and delete tasks without using any frontend frameworks.

E-Commerce Website (NxtTrendz):

• MERN stack e-commerce site with JWT authentication, protected routes, and product/cart features.

• Portfolio Website: Personal responsive website built with HTML5, CSS3, and Bootstrap to showcase projects and skills
